

## Weekly Brief for the Week #7

(17/04/2023 to 21/04/2023)

<i>Meeting with the Client</i>	No
--------------------------------	----

<i>Sprint</i>	3
---------------	---

### 1. Current Status

- We received the confirmation about *Meeting Minutes #4* we sent to the client on 14/04/2023. Everything was correct and the minutes were approved.
- For *Sprint 3*, we purposed the implementation of 20 user stories and some more fixes and enhancements the client requested on the *Sprint 2 Demo*.
- We have already done 4 of the 20 total user stories proposed for this sprint and all the fixes and enhancements, so we feel on track.

### 2. Plans for the coming weeks

- Next week we won't meet with the client, although we will continue the development of *Sprint 3*.

### 3. Potential Risks

- As the project progresses, it's important to maintain the quality of the code, documentation, and testing. If quality issues arise, they may require additional time and resources to fix. So, we feel like we need to save some more time to, maybe, do a quality review on the code.
