# Weekly Brief for the Week #2

*(06/03/2023 to 10/03/2023)*

| | |
|---:|:---|
| ***Meeting with the Client*** | Yes |
| ***Sprint*** | 0 -> 1 |

## 1. Current Status

▪ This week we had a meeting with the client on 10/03/2023 (yesterday) to discuss and present the work developed through Sprint 0: the definition of the user stories.

▪ We didn't yet finish 'Meeting Minutes #2', although we plan to send them to the client today.

▪ We have already started working on the deliverable (SFR) for this week. As usual, we had a meeting with all team members during the week (Wednesday afternoon) where we decided who was going to be responsible for writing the first version of the deliverable. That way we already have an initial version for it that we will use to discuss and improve on today's class.

## 2. Plans for the coming weeks

▪ Next week we won't meet with the client, although we will continue to work on Sprint 1, which started yesterday.

▪ During next week we will work on the Product Vision and Prototype and also create our Slide Deck for the Review meeting.

## 3. Potential Risks

▪ Since we will now start the technical development, we face the obvious risk of having to manage our time to guarantee we keep in track with the roadmap we proposed.
